CORE EXPERTISE

Frontend Engine

Next.js, React.js, Vite, Tailwind CSS, Framer Motion, JavaScript (ES6+)

Backend & Data

Node.js, Express.js, SQL Server, PostgreSQL, MongoDB, RESTful APIs

DevOps & Cloud

VPS Management, Nginx, SSL / Certbot, CI/CD Pipelines, Linux/SysAdmin, Security Hardening

Operations

Technical SEO, Ahrefs Audit, Google Analytics, UI/UX Optimization

Education

BCS (Virtual University) 2010

PROFESSIONAL EXPERIENCE

Principal Full-Stack Engineer & Founder

Unique Soft Warehouse | Haripur, Pakistan

- Architected, developed, and deployed scalable custom business solutions, e-commerce networks, and industrial systems for global clients.
- Overhauled client hosting environments to optimize baseline uptime, orchestrating custom Linux VPS configurations integrated with automated Nginx reverse proxies and zero-downtime SSL renewals via Certbot.

FEATURED ENTERPRISE PROJECTS

The Belgium Beauty Platform (at thebbs.eu)

E-Commerce Ecosystem (Full Architecture) | Live Production

- Engineered a high-performance beauty and cosmetics storefront completely from scratch leveraging Next.js server-side rendering to enhance page load speed.
- Integrated multi-tier custom cart logic and a bulletproof checkout sequence to drive seamless transactions.

MD Mushtaq Transport System

Logistics & Infrastructure App | Live / UAE Market

- Designed and executed the corporate digital tracking interface for a UAE-based transport conglomerate.
- Handled technical service scoping, business analytics workflows, and structured database logic mapping out high-volume routing logs securely.

Apex & Quantum Systems Dashboard

FinTech Tracking & Forex Management | Analytics Suite

- Built a feature-dense data visualization dashboard rendering real-time global currency rates, asset tables, and core business metrics.
- Utilized a modular frontend layout to allow rapid analytics filtering and fluid components styled via Tailwind CSS.

Industrial Systems & E-Boutiques Portfolio

Shaba Traders & Tib Boutique | Production Deployments

- Developed a tailored scrap management and trading marketplace system allowing seamless metal transaction logs and industrial listings.
- Designed and brought to market a luxury bespoke boutique apparel portal featuring smooth Framer Motion animations.
